

Alex's Beetle Love Story

Guide | 23 Jul 2021 | Limebug Guide

Alex's 1965 Beetle Limebug-Equipped Bug

The perfect mix of original patina and chassis modernisation – Alex's '65 ticks all the boxes. The Two Tone Pearl White paintwork was the perfect base for heavy modification; Alex didn't pass-up the opportunity, opting to fit a Full Deluxe Air Suspension Kit from ourselves. Tied together with a set of SA Sprints, this T1 is the perfect formula of New & Old school.

Find out more about Alex's Beetle build and the story behind it, in the video linked below...
