Build your wheels here!

The Design:

Paying homage to the Volkswagen OE Smoothies, we designed our very own Split Rim spin-off. Utilising flush fit hardware, adaptable for any chosen specs, these wheels are the ultimate way to step up your OEM+ build. Some of you may be familiar with these wheels, being featured with cream centres on our OG Tempo Matador build. For more pics of this, make sure to check out our Build Diary.

LIMEBUG

The Specs:

• 5×205 PCD

• 17´´ OZ 35 Bolt Pattern

• M7 Hardware
